Tips for Building the LEGO VIP Halloween 2022 Sets

Building the Halloween-themed LEGO sets can be a delightful experience, especially when you're working with unique parts and colors that aren't always common in other sets. Here are some helpful tips to enhance your building session:

Organize Your Pieces Ahead of Time

Before diving into the instructions, sort your LEGO bricks by color and type. Halloween instructions often include specialized pieces like transparent orange bricks (for pumpkins and lanterns) or printed tiles with spooky designs. Having these ready will speed up your build and reduce frustration.

Pay Attention to Small Details

Many Halloween-themed LEGO builds are rich in tiny details that bring the scene to life. Whether it's a tiny ghost figure or a jack-o'-lantern with a flickering candle, don't rush through these parts. Taking your time to get these details right really enhances the final appearance.

Customize Your Build

One of the joys of LEGO is making something uniquely yours. After completing the official LEGO VIP Halloween 2022 instructions, consider adding personal touches. Maybe incorporate minifigures dressed in spooky costumes or create additional decorations like cobwebs or gravestones using spare bricks.

Popular Builds from the LEGO VIP Halloween 2022 Collection

The 2022 Halloween instructions featured several standout builds that fans have loved. These mini builds are often designed to be display pieces or parts of a larger Halloween village setup.

Spooky Pumpkin Carriage

A highlight of the 2022 instructions was the pumpkin carriage—a charming and compact build that captures the whimsy of Halloween fairy tales. The use of translucent orange bricks and curved elements makes it visually striking, and the carriage includes a small seat for a minifigure witch or wizard.

Haunted House Window Display

Another popular build was a haunted house window frame, complete with creepy curtains, bats, and a glowing lantern. This piece is perfect for attaching to larger builds or using as a standalone decoration on shelves or desks.
