## Starting the Wish Ender Quest

To start the Wish Ender quest, you need to have access to the Dreaming City, which requires completing the Forsaken campaign. Once there, the quest is initiated by locating the exotic quest item called "The Dreaming City Exotic Questline" in the Blind Well or by speaking to the NPC Petra Venj in the Dreaming City.

Here are the essential prerequisites to keep in mind:

# Step-by-Step Wish Ender Quest Walkthrough

The quest can be broken down into several key phases. Each phase has its own challenges and requires you to explore different parts of the Dreaming City, solve puzzles, and defeat enemies.

## Phase 1: Retrieve the Bow String

Your first objective is to obtain the bowstring needed to craft the Wish Ender. This involves venturing into a hidden area within the Dreaming City called the Shattered Throne dungeon. While you don't have to complete the entire dungeon, you will need to navigate the initial sections, solving puzzles to reach the area where the bowstring is located.

Tips for this phase:

- Pay close attention to environmental cues and symbols on the walls.
- Use your Ghost to scan for hidden pathways.
- Avoid unnecessary combat to conserve ammo and abilities.

## Phase 2: Gather the Dreaming City Materials

Once you have the bowstring, the next step is collecting various Dreaming City materials, such as Ascendant Shards and other rare components. These materials are typically found scattered throughout the city, often guarded by powerful Taken enemies.

To efficiently farm these materials:

- Engage in public events like Blind Well or Escalation Protocol.
- Target high-level Taken enemies for better drop rates.
- Use farming routes that cover multiple material spawn points.

## Phase 3: Complete the Stealth Section

One of the most memorable parts of the Wish Ender quest is the stealth mission, where you must sneak past enemies without being detected. This section tests your patience and timing, requiring careful movement and utilization of crouch mechanics.

Helpful pointers:

- Move slowly and stay in the shadows.
- Use any invisibility or stealth-enhancing subclass abilities.
- Observe enemy patrol patterns before proceeding.

## **Phase 4: Defeat the Taken Boss**

The quest culminates in a boss fight against a powerful Taken enemy. This fight demands both strategic combat and the use of your abilities to overcome the boss's attacks and minions.

Tips to succeed include:

- Bring weapons with high damage output and crowd control.
- Coordinate with fireteam members if possible.
- Use supers to clear adds quickly and maximize DPS on the boss.

## **Maximizing Your Wish Ender Experience**

After completing the quest and acquiring the Wish Ender, it's important to understand how to best utilize this exotic bow. The Wish Ender features a unique perk called "Threaded Cane," which allows it to fire a powerful bolt that can see through walls and track enemies briefly—a fantastic tool for both PvE and PvP.

### **Wish Ender in PvE**

Strategies to consider:

- Use Wish Ender to reveal enemy locations before engaging.
